This unique kit provides the starter and inspiration for that very special album.

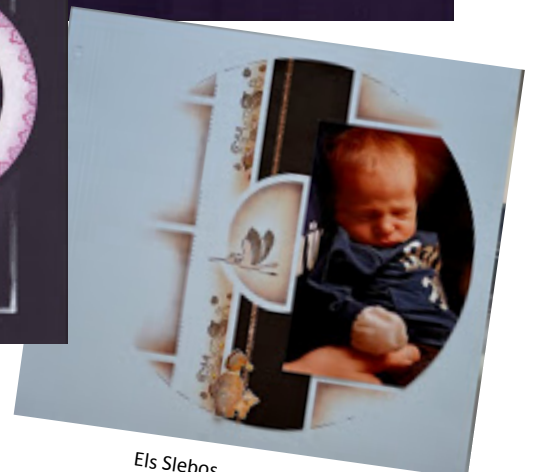

This KIT includes one of the very new Sensation albums - post and screw albums that are covered in Fabric. These are perfect for special occasions. The colour theme is neutral to allow you to personalise the album and its contents. The album is in Grey, with 20 Reportage pages (5 each of white, natural, brown and grey), the Decoration stencil duo 'Birth', a sheet of silhouette figures 'Birth', a unique micro-stamp 'Weights and Measures' (not available outside this kit), a set of 5 insert pages on the theme 'Birth' (not available separately) and an 80 page book to give you all the ideas you need to complete this album. The kit is presented in a Kraft storage box to use as a project box during the project and as a storage box for the completed album. The box can also be personalised.
